**Raised & Fielded Timber
Garage Doors**

Raised & Fielded Timber Garage Doors

The natural beauty and elegant panel design of our Raised and Fielded Timber doors have a classic appeal that will compliment the design of most homes. Simple and light to operate, they combine natural beauty with durability and strength over a long period of time.

Features

- Standard sectional overhead doors consist of 5 hinged panel sections per door.
- Our raised and fielded timber doors are manufactured from laminated Saligna hardwood panels in a fully machined framework to ensure strength and durability.
- All our timber doors are treated with 2 coats of water repellent, fungal resistant, clear colour oil-based wood preservative. We recommend that a further coat should be applied within 2 weeks of installation and thereafter at least twice annually.

Benefits

- Customise your look with a variety of block patterns available
- White wood primer option also available
- Quality hardware
- Smooth and quiet operation
